

Crochet pattern

"Zlata"

polyester cord bag

Liudmyla Pavlus

2024

To crochet a bag, you will need the following materials:

- Polyester cord 2 mm
100 g/165m
2 skeins of yarn;

- Crochet hook,
size 4mm;
- Scissors;
- Stitch markers;
- Large eye blunt needle;
- Lighter.

This bag is very easy to make. Even a beginner can crochet it.

In order to crochet such a bag, you must be able to crochet chain stitches, slip stitches and double crochets. But if you do not have such skills, in a short video I show you the basic crochet stitches.

The bag is crocheted in a circular pattern with double crochet , hook #4.

I crocheted with 2 mm polyester cord. But you can crochet with any other yarn you like. But, if you crochet with another yarn, choose a hook according to the recommendation on the label of the skein of yarn.

The size of the finished bag will depend on the diameter of the round bottom of the bag.

Size of my finished bag: width 32 cm, height 28 cm, handle length 50 cm.

Jindrynya Darling

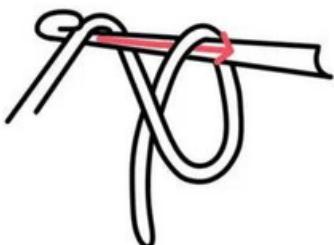

To crochet this bag, basic crochet skills are required.

You need to know how to crochet:

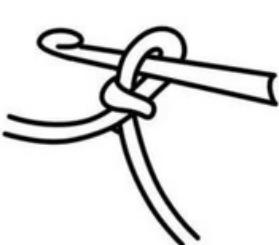

- **chain stitches;**
- **double crochet stitches**
(in UK treble crochet);
- **slip stitches.**
- **inc increment (increase)**

- **Chain (ch) (or loop)**
- **Chain stitch (ch st)**

MAGIK RING

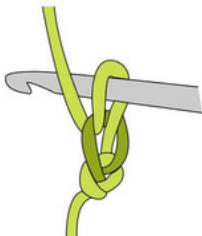

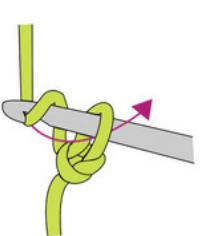

SLIP KNOT

Crochet usually begins with a series of chain stitches called a beginning or foundation chain. After making a slip knot, the next step in a project is usually to create a series of chain stitches.

Chain stitches form the foundation on which you build the rest of the project.

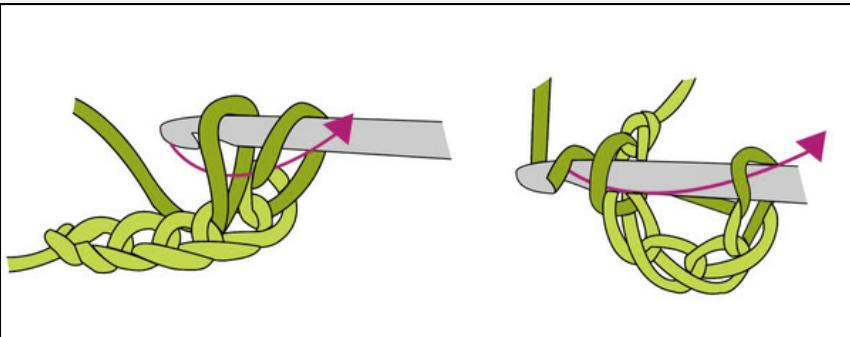

The chain stitch is used to increase the height of a new row or to add embellishments.

A magic ring is an adjustable starting round used for crochet. It is needed to create a circle, as well as for crocheting granny squares and other things.

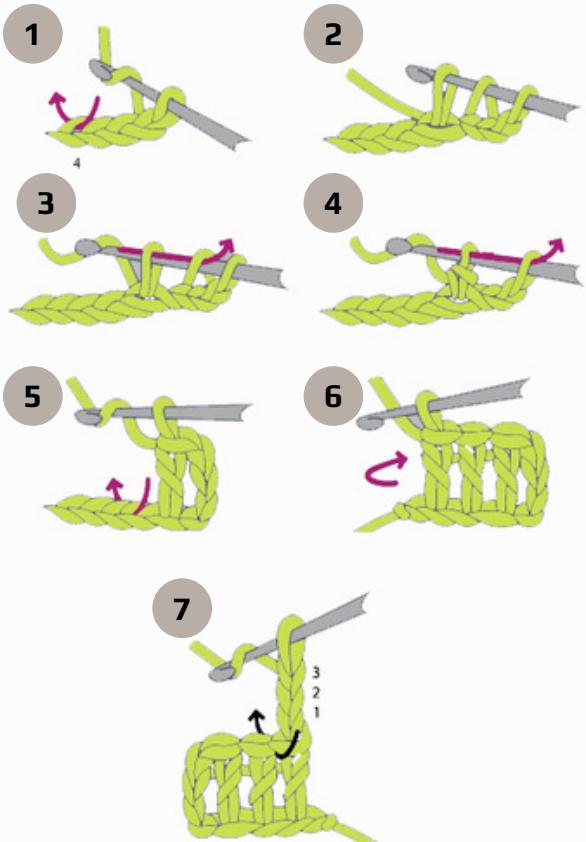

- **Slip stitch (sl st)**

In crochet, the slip stitch is used to join pieces, add decorative elements, and finish projects with simple borders.

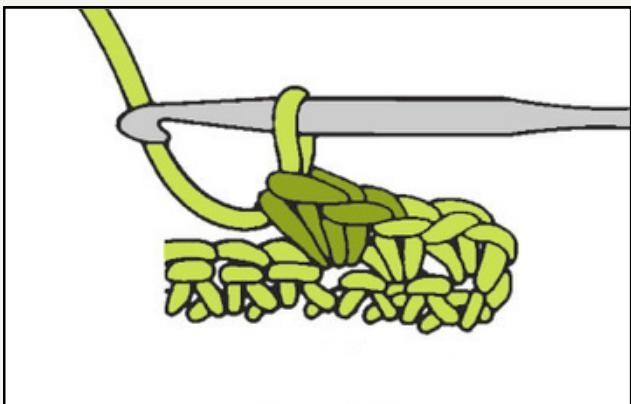

Lindayla Davies

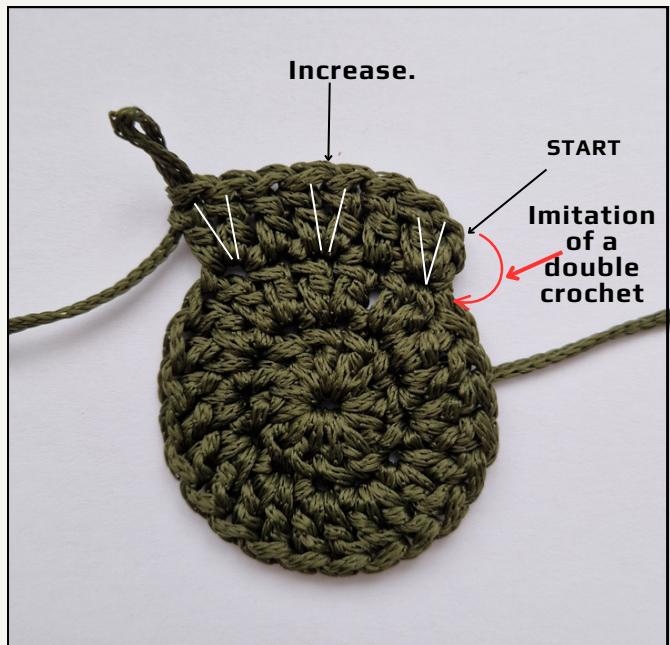

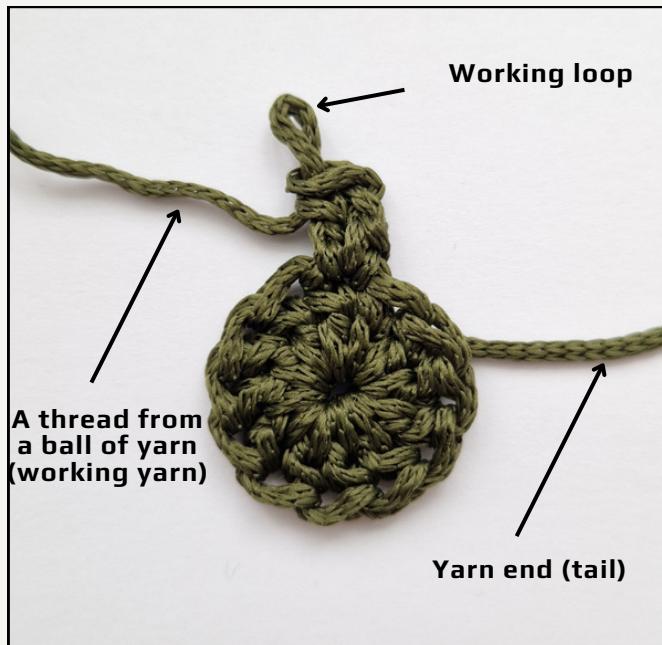

• Double crochet (dc)

• inc increment (increase)

Crochet loop increase means that you need to crochet 2 loops into one.

My crochet density:

19 loops - 10 cm

10 rows - 10 cm

Lindmyra Pavlus

The process of crocheting a polyester cord bag consists of 4 stages:

Stage 1. Crochet the bottom of the bag.

Stage 2. Crochet the main part of the bag.

Stage 3. Crochet handles.

Stage 4. Steaming the finished product.

Stage 1. Crochet the bottom of the bag.

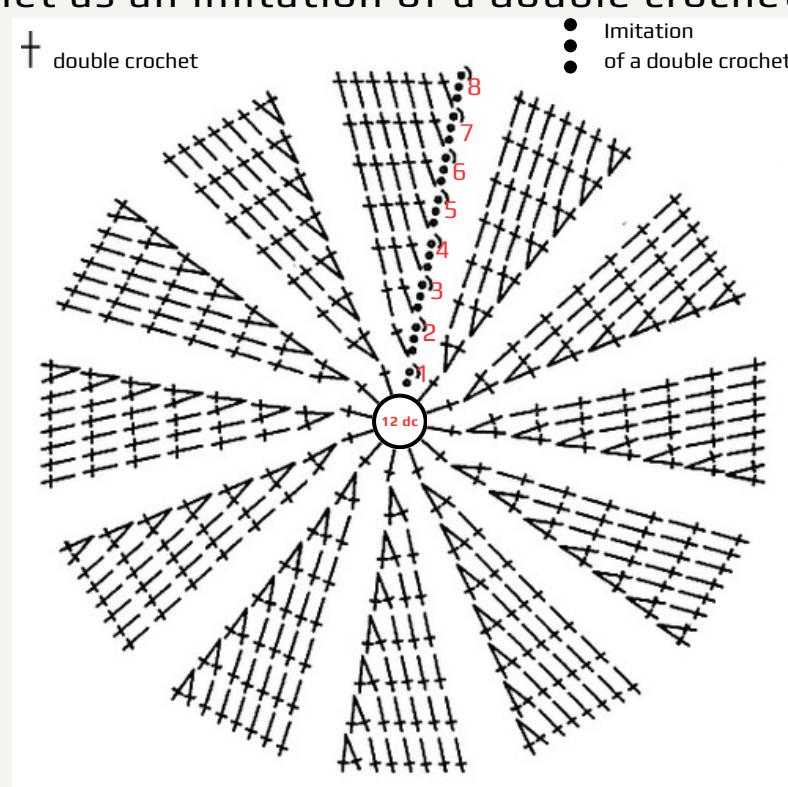

The size of the finished bag will depend on the diameter of the crocheted circle (bottom), that is, the larger the circle, the larger the bag.

In my case, the diameter of the circle is 21,5 cm.

The basic principles of crocheting single crochet in the round:

- - The first row consists of 12 loops
- - Each subsequent row is increased by 12 loops, i.e., there are 12 increases in each row.
- - The number of loops between increases in each row increases by 1 loop.
- - For convenience, make the increase over the increase of the previous row.
- - To connect the row invisibly, crochet the first loop in each row with a double crochet as an imitation of a double crochet.

For your convenience,
we offer a diagram of
how to crochet the
bottom of a bag.

Lindmyla Pavlus

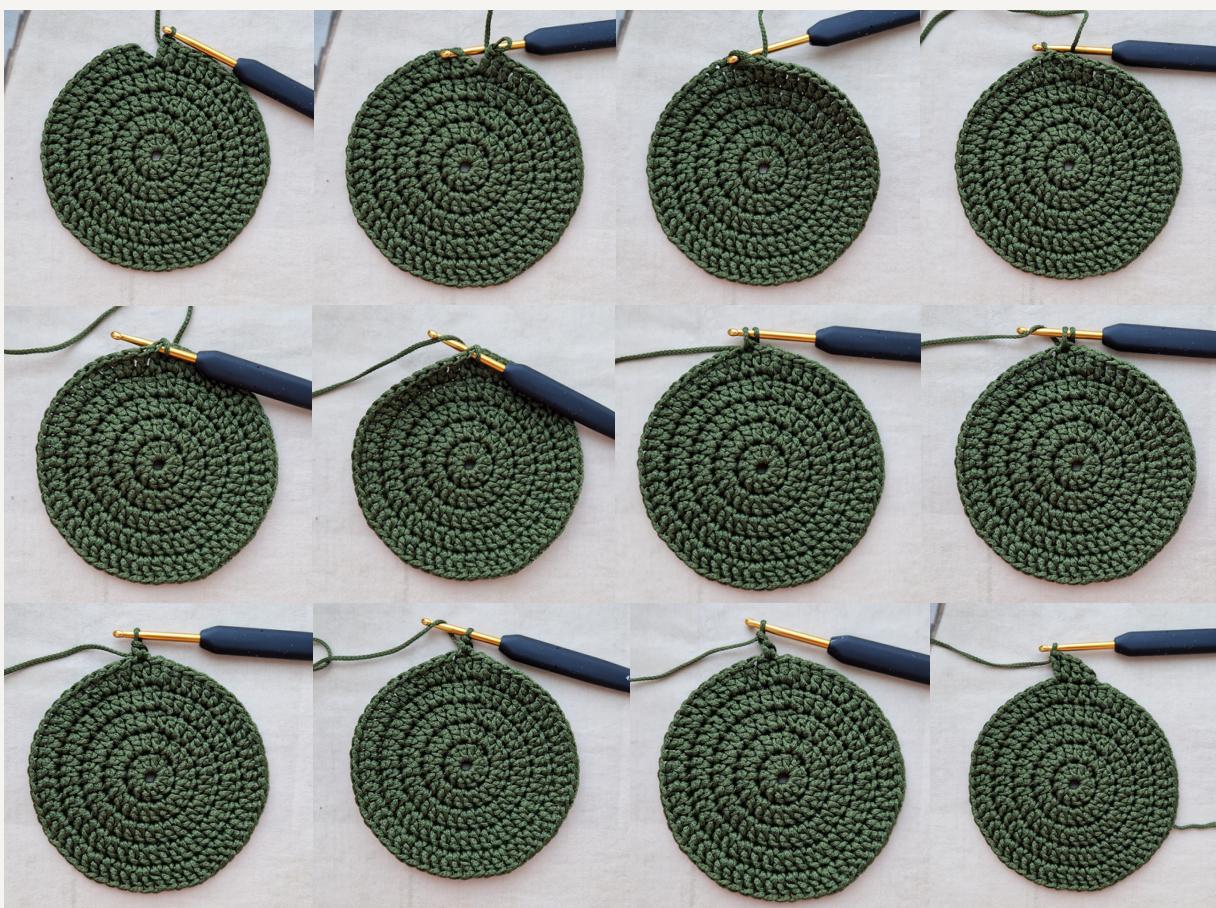

How to make an imitation of a double crochet?

At the end of each row, do the following:

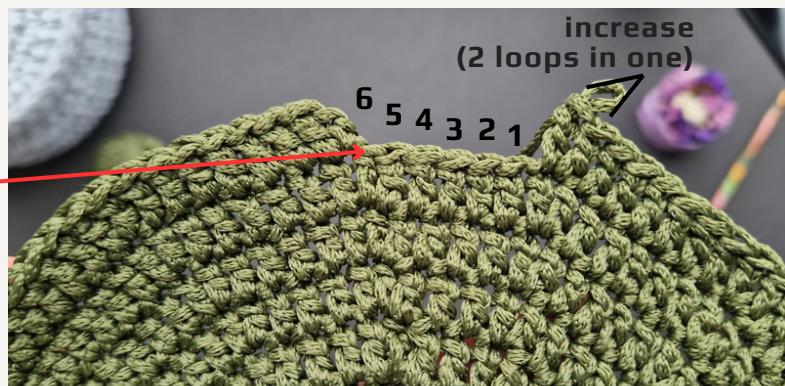

- 1. Insert the hook from the wrong side into the 2nd double crochet column and pull the working loop to the wrong side.
- 2. Next, insert the hook into the same double crochet, only on the front side (meanwhile, the working loop is on the hook).
- 3. Pick up the working thread and pull out another loop (there are 2 loops on the hook).
- 4. Pick up the working thread and crochet 2 loops together.
- 5. Crochet 1 more chain stitch.

This will be an imitation of a double crochet!

So crochet at the end of each row!

**Do not forget to
crochet a double
crochet in the
last loop of the
row.**

Lindmyla Pavlus

Let's start crocheting the bottom of the bag!

1 row 2 lifting loops, 11 dc in magic circle

Make a magic ring.

In this ring, pick up 2 chain stitches (they are called "lift loops" and replace 1 double crochet) and 11 double crochets.

A total of 12 double crochets are obtained.

2nd row 12 inc

In each loop, crochet 2 double crochets (increase).

Total of 24 double crochets.

3rd row (inc, 1 dc) repeat 12 times

Make an increase, then crochet 1 double crochet and repeat 12 times.

There is 1 loop between each increase in this row.

Total of 36 double crochets.

4rd row (inc, 2 dc) repeat 12 times

Make an increase, then crochet 2 double crochets and repeat 12 times.

There are 2 loops between each increase in this row.

Total of 48 double crochets.

5rd row (inc, 3 dc) repeat 12 times

Make an increase, then crochet 3 double crochets and repeat 12 times.

There are 3 loops between each increase in this row.

Total of 60 double crochets.

6rd row (inc, 4 dc) repeat 12 times

Make an increase, then crochet 4 double crochets and repeat 12 times.

There are 4 loops between each increase in this row.

Total of 72 double crochets.

7rd row (inc, 5 dc) repeat 12 times

Make an increase, then crochet 5 double crochets and repeat 12 times.

There are 5 loops between each increase in this row.

Total of 84 double crochets.

8rd row (inc, 6 dc) repeat 12 times

Make an increase, then crochet 6 double crochets and repeat 12 times.

There are 6 loops between each increase in this row.

Total of 96 double crochets.

9rd row (inc, 7 dc) repeat 12 times

Make an increase, then crochet 7 double crochets and repeat 12 times.

There are 7 loops between each increase in this row.

Total of 108 double crochets.

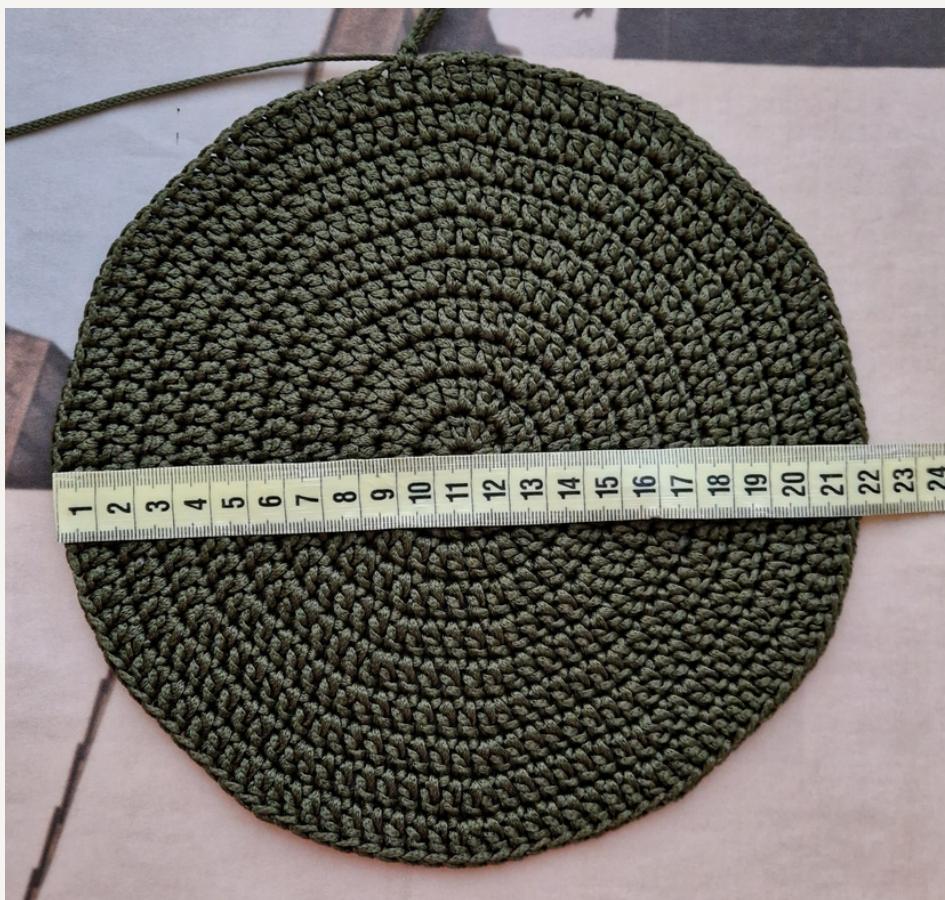

10rd row (inc, 8 dc) *repeat 12 times

Make an increase, then crochet 8 double crochets and repeat 12 times.

There are 8 loops between each increase in this row.

Total of 120 double crochets.

The bottom of the bag is ready!

**My crocheted bag
bottom has a
diameter of 21.5 cm**

Stage 2. Crochet the main part of the bag.

The main part of the bag is the easiest to crochet! Simply crochet double crochets in each loop (there are 120 of them) to the required height.

After crocheting 2 rows without increasing the loops, the walls of the bag begin to rise up.

I crocheted the main part to a height of 21 cm (20 rows).

You can crochet more rows, so your finished bag will be longer.

Crochet the last row with slip stitches to form a pigtail. This will give the base of the bag a finished look.

Cut the thread and hide it in the crocheted fabric with a needle.

Lindmyla Pavlus

Stage 3. Crochet handles.

The handles in this bag are crocheted on both sides, and then sewn into one with a needle.

To evenly distribute the handles, you need to divide the main part of the bag that we crocheted into 4 parts.

That is, divide 120 loops into 4 parts.

Parts 1 and 3 will contain the handles. That is, in each of these parts, select 30 central loops with stitch markers.

The handles, like the entire canvas, are also crocheted with double crochets. Each subsequent crocheted row of the handle is reduced by 2 loops, up to 8 loops.

1 row of handles

Crochet the first row over the pigtail that was formed in the last row of the bag base when crocheting slip stitches.

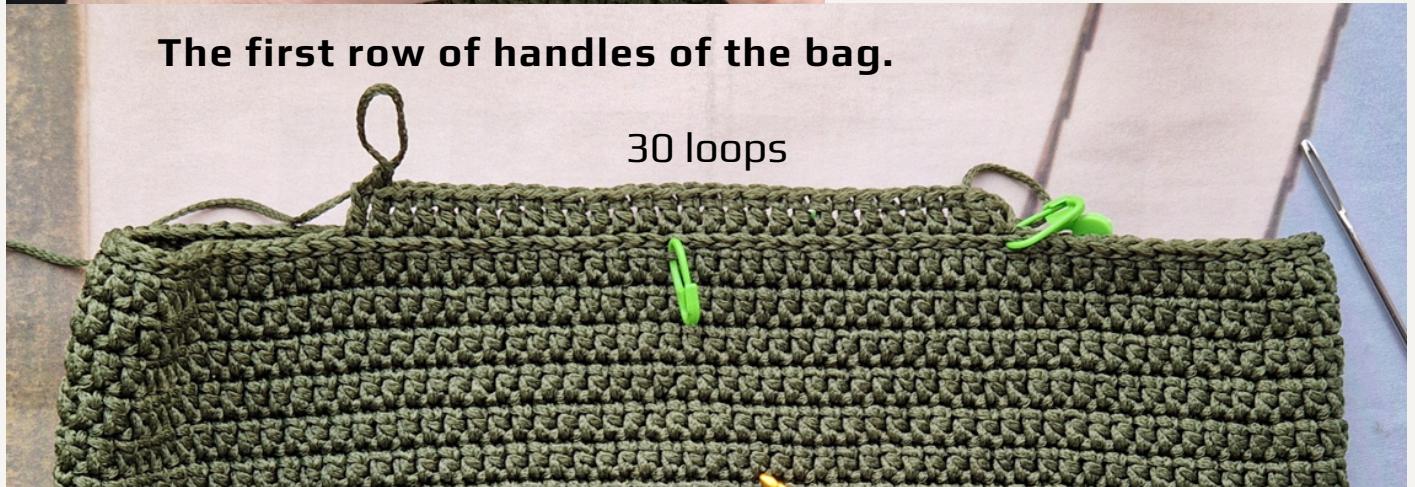

Crochet 2 chain stitches and 29 single crochets.

(In the first row, there are 30 crochets.)

Crochet the first row of handles where marked with a marker stitch.

The first row of handles of the bag.

Lindmyla Pavlus

2nd row

In the second and in all subsequent rows (up to row 12), do not crochet the loop of the lift!!!!

In order to decrease each row by 2 loops, you need to crochet the first double crochet in the 2nd loop of the previous row (this will decrease by one loop), and do not crochet the last loop in the row (this will decrease by one more loop).

Thus, 2 rows crocheted 28 double crochets.

In all subsequent rows (3rd to 12th row), decrease the loops in the same way.

3rd row - 26 dc

4rd row - 24 dc

5rd row - 22 dc

6rd row - 20 dc

7rd row - 18 dc

8rd row - 16 dc

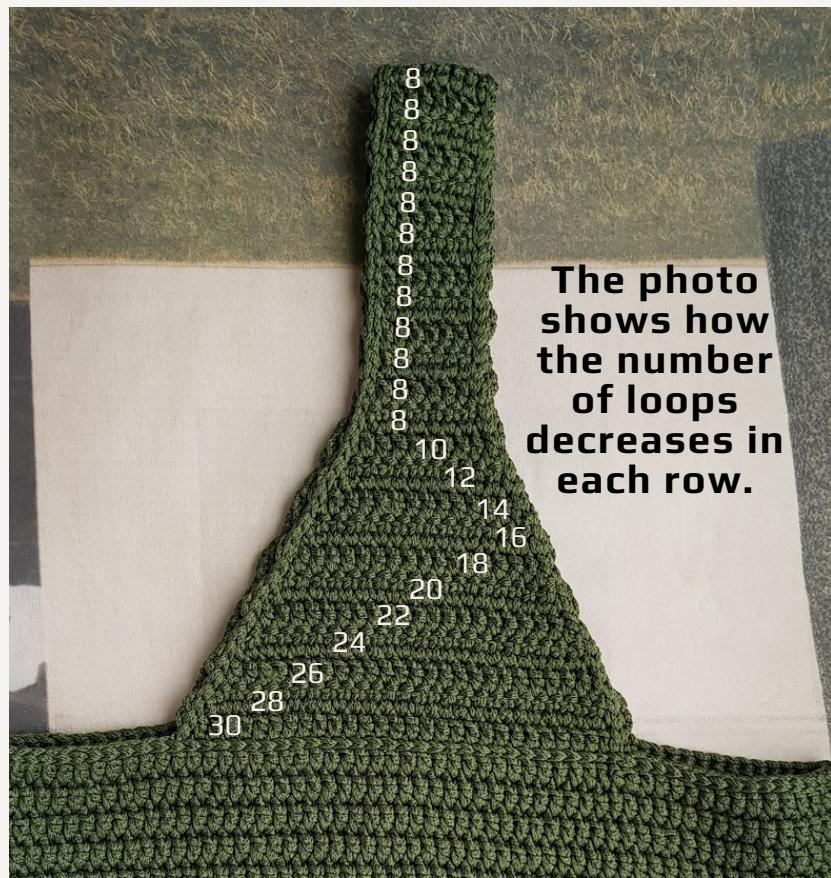

9rd row - 14 dc

10rd row - 12 dc

11rd row - 10 dc

12rd row - 8 dc

**From the 13th to the 24th rows, crochet 8 double crochets in each row
(starting from the 13th row, do not forget to start a row of 2 loops of lifting)**

Optionally, you can crochet a few more rows if you want a longer bag handle.

In the same way, crochet the opposite handle.

Next, use a needle to sew both handles together so that they are joined.

In order to prevent the handles from stretching too much and to make them look neat and complete, it is advisable to crochet the handles with slip stitches along the entire length. Start crocheting at the point where the handle begins.

Do this on both sides.

Lindmyla Pavlus

Hide all the extra threads with a needle in the knitted fabric, and light the tip with a lighter so that it does not crumble (but only if you also crochet with synthetic cord).

<https://youtu.be/pAhFhPzflbY>

Stage 4. Steam the finished product.

Steam the finished bag with an iron through a thin towel or a steamer so that the bag takes its shape and the hinges are leveled.

Congratulations on completing your bag!
You did an excellent job!
